-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4,9-11 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by US Patent #4,486,998 to HAGUE. HAGUE discloses a structural panel including a sheet material having a plurality of elongate ribs (11,12,13,etc.) and (R), see below; and

a sealing cap (28) that engages an adjacent pair of elongate ribs (11,12,13,15,etc.). Regarding claim 2, the elongate ribs include a plurality of upright ribs (11,12,13,15,etc.) and a plurality of partial height ribs (R). In reference to claims 3 and , at least two upright ribs (11,12,13,15,etc.) are adjacent one another and are adjacent at least one partial upright rib (R). Regarding claim 9, the sealing cap is U-shaped and engages a pair of upright ribs (11,12,13,15,etc.). In reference to claim 10 and 11, the sheet material is waterproof. Regarding claim 14, the upright rib (11,12,13,15,etc.) and partial

Art Unit: 3635

ribs (R) are adapted to overlies and engage adjacent upright and partial ribs disposed at an edge of a substantially identical panel.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claim 16 is rejected under 35 U.S.C. 103(a) as being unpatentable over US Patent #4,486,998 to HAGUE. HAGUE discloses the basic claimed panel except for additional ribs. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the panel of HAGUE with additional ribs in order to add strength to the structure. It is old and very well known in the art to provide a structure with ribs in an attempt to give added strength to the member.

Allowable Subject Matter

Art Unit: 3635

Claims 5-8,12,13,15 and 17-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
